RE: BOIL WATER NOTICE LIFT #5273
KIMZEY REGIONAL WATER DISTRICT - PWS ID # 821

The Department of Health has released the 'Boil Water' Notice issued on 12/5/2023 by Arkansas Department of Health for the approximate 100-150 customers starting at the intersection of US Hwy 70 and State Hwy182 heading west towards Glennwood for approximately three miles to the end of the system. This order was issued as a precautionary measure because of the possibility that contaminated water may have entered the distribution system as a result of a complete loss in normal system pressure and a main break.

Bacteriological samples taken on Wednesday, December 6, 2023 were found to be free of bacterial contamination and a satisfactory disinfectant level has been established throughout the distribution system. The water is therefore considered 'Safe' for human consumption and the 'Boil Water' notice is hereby lifted.

Sincerely,

Jack Gregg Jr.
